

To whom it may concern, I listen to K-LOVE on 105.5 FM and have for many years. I am concerned that it stay available to myself, my family and the community. It is a wholesome family friendly station and has positive and encouraging music. I would hate to see other types of programming that would not be in the best interest to families, especially with young children. K-LOVE serves other listening areas as well on 89.1 and 100.9 and as I have traveled around the state I have been delighted to be able to tune to these as well. I also am aware that K-LOVE is in many communities across America. Please do not allow a LPFM station to take priority over current FM translator services such as K-LOVE. Thank You.
